Mentor(s)

1. Mentor name
2. Mentor name

What city and country will you reside in during the summer?

What aspect of (or modules) of webpack will the proposed work modify or create?

What benefits does your proposed work have for webpack and its community?

Why are you the right person to work on this project?

How do you plan to achieve completion of your project?

Please provide a sequence of tasks and subtasks and how long (days) you estimate it will take you to complete each of them. Highlight important milestones/deliverables.

What are your past experiences with the open source world as a user and as a contributor?

Please include links to your code contributions which have already been merged, or to GitHub pull requests for the issues you fixed for the project of your proposal or any other webpack repositories. This demonstrates your willingness to learn and familiarity with development workflow.

If available, please include links to any code you wrote for other open source projects.

What other relevant projects have you worked on previously and what knowledge have you gained from working on them?

What other time commitments, such as school work, exams, research, another job, planned vacation, etc? What are the dates for these commitments and how many hours a week do these commitments take?
